

Instructions for TWC Nature Photo Club Name Tags

Please submit two (2) photos.

(You may submit 2 verticals, 2 horizontals, or 1 of each.)

Photos for name tags may be vertical or horizontal. Keep in mind that some photos may not work well with the cropping dimensions that are required for the name tags.

If you are unable to crop and/or resize your photo, send it to me full size and I will crop and resize it for you. BUT, keep in mind, if you want to know what your photo will look like cropped to fit the name tag, you will need to crop it to the correct dimensions yourself.

Horizontal photos should be cropped to a 1: 2.13 (height to width) ratio and resized to approximately 800 pixels wide and 376 pixels high. (To crop your photo, take the width of your photo in pixels and divide it by 2.13 to get the correct height in pixels. For instance, if your photo is 3170 pixels wide, divide that by 2.13, to get the correct height for your cropped photo – approximately 1488 pixels high.) After correctly cropping your photo, you should be able to resize it by setting the width to 800 pixels, and the height should then be approximately 376 pixels.

Vertical photos should be cropped to a 1:1.5 (width to height) ratio and resized to approximately 800 pixels high and 533 pixels wide. (To crop your photo, take the height of your photo in pixels and divide it by 1.5 to get the correct width in pixels. For instance, if your photo is 2700 pixels high, divide that by 1.5, to get the correct width for your cropped photo – approximately 1,800 pixels wide.) After correctly cropping your photo, you should be able to resize it by setting the height to 800 pixels, and the width should then be approximately 533 pixels.

Also, be sure to **include your name** in the e-mail as you would like it printed on your name tag.

Send your photos and your name as you would like it on your name tag to: rita@habrunsinsurance.com

In the e-mail subject line, please put: Photo Club Name Tag

Thank you!
Rita Boyd
